PROJECTS SO FAR

E-COMMERCE (PHP LARAVEL)

- Led the development of the product catalog module, allowing efficient management of product information, categories, and inventory.
- Integrated with external APIs for features like shipping calculations, address verification, and social media sharing.
- Continued to provide ongoing support and maintenance, ensuring uninterrupted operations and addressing any issues promptly.

MATRIMONY (PHP LARAVEL)

- Developed the user registration and profile creation module, allowing users to create detailed profiles, upload photos, and specify their partner preferences.
- Implemented advanced search and filtering functionality, enabling users to search for potential matches based on criteria such as age, location, education, and occupation.
- Conducted extensive testing and debugging to ensure data integrity, smooth user experience, and secure data handling.

CONSTRUCTION (PHP LARAVEL)

- Developed the project tracking module, allowing users to create and manage construction projects, assign tasks, track progress, and monitor milestones.
- Implemented reporting and analytics features, providing insightful project performance metrics, budget tracking, and resource utilization reports.
- Ensured a responsive and user-friendly interface, optimizing the platform for seamless use across devices.
- Conducted rigorous testing and debugging to ensure data accuracy, system stability, and secure data handling.

IAS ACADEMY (PHP CODEIGNITER)

- Developed the student enrollment module, enabling easy registration, fee management, and document submission for new and existing students.
- Implemented a course management system, allowing administrators to create, schedule, and manage courses, subjects, and class timings.
